## JOHANN HOCH IN CHICAGO

### HAS CONFESSED TO 13 MARRIAGES.

Police Predict That He Will Own Up to at  
Least Thirty Before the Present In-  
quest Over His Last Victim Is Ended—  
Prisoner Seemed Dejected and Rarely  
Looked Up

Chicago, Feb. 11.—Johann Hoch, Fri-  
day heard himself, for the first time  
accused by witnesses and pointed out  
to a jury as a bigamist. Before a big  
and curious crowd he sat while the  
narrator of Mrs. Walcker-Hoch's death  
was described. Before entering the  
jury room in the criminal court build-  
ing where the inquiry was held, Hoch  
confessed, the police say, to having  
married 13 of the 39 women who claim  
him as husband. Two in Milwaukee  
and two in Cincinnati were admitted  
by him Friday. It is predicted by the  
police that he will own up to fully 30  
of them before the inquest, with its at-  
tendant strain upon him ends. But  
he holds firmly to his denial that he  
poisoned any one of them.

All along the route from Chicago  
Avenue police station to the criminal  
court building, crowds were waiting de-  
spite the cold, as if a big parade was  
anticipated.

All these people saw was a covered  
patrol wagon. In front of the main en-  
trance to the criminal court building  
another throng was lined up, form-  
ing an avenue through which Hoch  
and the police in charge of the pris-  
oner had to pass. The stairs were  
lined with people and on each floor em-  
ployees of the criminal court building  
were waiting for a look at the man  
who had courted and married so many  
wives.

Hoch kept his overcoat collar turned  
up and hung his head. All sorts of re-  
marks were made about him by the  
throng, but he never responded.

The grand jury room, where the in-  
quest was held, was filled with wit-  
nesses, officials and newspaper men  
when Hoch arrived. Mrs. Emilio  
Fischer-Hoch, his latest spouse; Mrs.  
Bertha Sohn, Mrs. Emma Rencken, one

Chicago, Feb 11.—To help supply the demand for prime coach horses Assistant Secretary of Agriculture Hayes has purchased in this city for the horse-breeding experiment station at Greencloud, 11 mares and a number of fine range horses. The Greeley installation is under the direction of the agricultural department at Washington and the government recently appropriated \$50,000 for the purpose of experimenting in breeding an ideal type of an American coach horse. This new move upon the part of the government is said to be likely to lead to requests from other live stock interests to branch out further and establish farms for breeding other types of horses as well as for breeding different types of cattle, hogs and sheep. With the rapid development of the country in which the demands for prime coach horses has become greatly increased and there is also a large demand for such horses to export.
